LAYOUT NOTES

The blue area indicates the bleed. All artwork and backgrounds must extend to the edge of this area.

The white indicates the safety margin for text, etc. All critical items must remain within the safety margins.

The yellow area is where the information goes on the spline.

Imported images should be actual size CMYK or grayscale .tifs @ 300 dpi.

Convert fonts to curves.

All colors should be CMYK.

Recommended minimum rule: 2 pts

Recommended minimum font: 5 pts

Please provide a full size colour hard copy.
