LAYOUT NOTES

Imported images should be actual size CMYK 300dpi Tiffs.

Please bleed any background image that goes to the edge of the CD to the outside of the yellow area and completely cover the yellow inner circle. (The outside bleed can cover the blue area if desired, it does not have to be round).

Keep critical items at least 3 mm from the edge of the yellow area.

It is best to convert fonts to curves.

All colors should be CMYK.

Recommended minimum rule: 2 pts

Recommended minimum font: 5 pts

Recommended minimum monotone screen: 10%

Please provide a full size colour hard copy.

Provide files as either high resolution JPEG files or PDF files.
